

Power Meter Monitor

Model: PMM0713

Document version: 1.1

Date: February 2021

2 X Digital input 220V AC module

DESCRIPTION

PMM0713 is a two Opto-isolated channels 220VAC digital input module which receives the signals from digital field devices.

PMM0713 has a LED for each digital input which indicates the current status of the connected device.

TECHNICAL DATA

Number of digital input	2
Signal type	Voltage
Voltage signal type	220VAC
Input characteristic	High-side switching
Input current per channel	5mA
Isolation	5000V system/field
Indicators	2x Green LED
Operating temperature	-20°C to +83°C
Degree of protection	IP54

MECHANICAL DATA

Width	55mm (2.16")
Height	82.3mm (3.2")
Depth	6.2mm (0.24")
Wight	50 g
Mounting type	Din rail

KEY FEATURES

- 2 Digital inputs 220VAC
- 5000V system/field isolation
- 2 LEDs for status indicator
- Very compact size 55 X 82 mm
- DIN rail mounting
- IP54 protection degree
- Operating temperature: -20°C to +83°C
